

DEVELOPING REFLEXIVE PRACTICE

PURPOSE OF DISCUSSION

The purpose of this discussion is to start reflect on your own motivations for conducting a Wayfinder process. It is essential to set aside time for deeper reflection around the values that are guiding your actions in the coalition, to challenge yourself to understand how problems and solutions are related, to distinguish real evidence from what in fact may be assumptions, and to try to reveal deeper beliefs around what you are doing and why. Reflecting on these issues are not only important for the learning that happens among coalition members, but it also needs to be clearly communicated to everyone involved in the process to ensure commitment and manage expectations. Together with the other members of the coalitions, discuss the questions below.

DISCUSSION QUESTIONS

- Why do you want to do a Wayfinder process?
- Where does the demand come from?
- What do you hope to achieve?
- Is Wayfinder a suitable process for achieving your goals?
